

CHURCH PLANTING IN BILOGORODKA, UKRAINE

3rd Quarter 2015 Report

July

Late last month we held at the church a Christian children's camp. After the camp, children started coming to church for Sunday service and for our Sunday school, as the number of children in need showed an interest in this.

And now the fruits of the camp have begun to show a little bit later. A week after the youth camp a young lady got saved and has helped teachers with the younger group. The next week two girls repented, around 14-15 years. And on July 19 at the service repent another girl who helped in the very youngest group. And now, three Sunday services after the camp we have seen 4 children have repented and accepted Jesus Christ into their heart. This is very, very great joy for the church.

So we organized a teenager fellowship during the week for teens who have not repented. One boy who repented (whose parents are members of our church) is preparing for baptism.

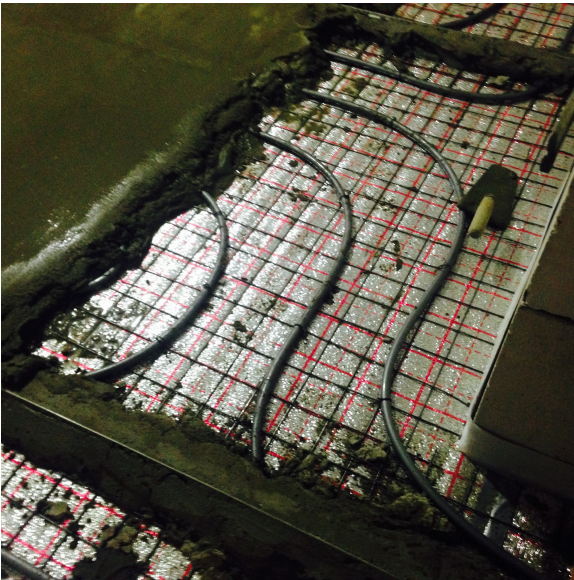

Thank God for His mercy, for this wonderful time of grace.

We are grateful to you for your support and prayers.

May God bless us all. Amen.

September

Praise God, the Lord has blessed us this month and helped us accomplish two important things for the church and for the village ministry.

First of all, there was another baptism. One of those who was baptized is 16, and he belongs to a family of believers. Second brother is 40 years old. His mother repented before death, and we held the funeral. Sometimes he would walk to our services, but not regularly. However, lately he has come regularly to services and then repented.

Usually, people who get saved this year would be baptized the following year, but their hearts burned with desire to be baptized, although it may be cold. They have undergone classes in preparation for baptism. Then we held the baptism of the elder brother and it was a wonderful church holiday.

We thank God for the fact that such holidays as baptism draw out the people who live near the church. This is a good opportunity to witness to them about God, because the neighbors come to the lake near the church.

Much praise and thanks to God for His mercy and love.

We thank you for your brotherly love that you show in Jesus Christ and for the support to us, and for the fact that you pray for the work of God in our country.

May God bless you His blessings. Amen.
